Fabulous – Your friend in COVID From Genpact

June 2020

Fabulous – We care for your well being

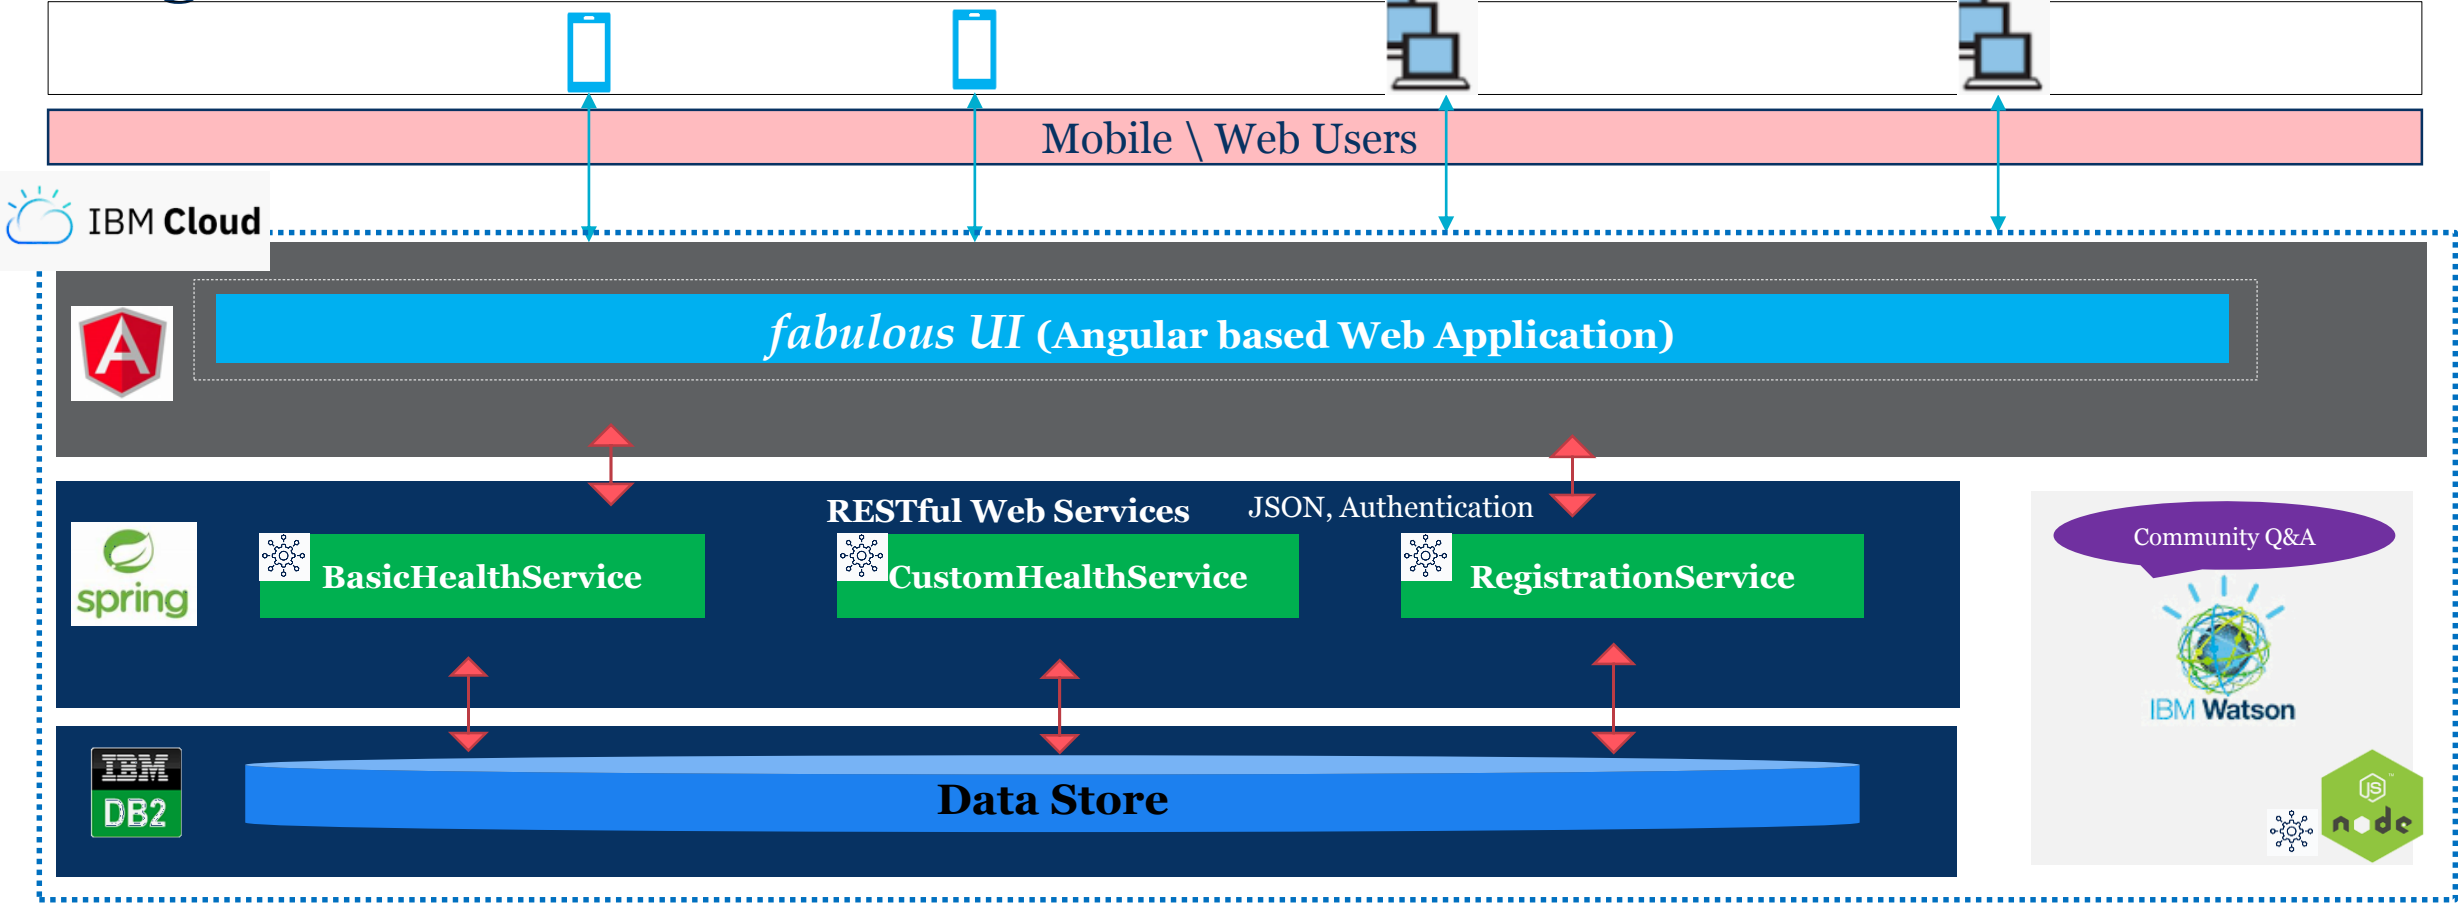

Problem Statement

- Mental health issue, stress levels has tremendously increased for everyone across the globe due to pandemic.
- Everyone is trying to adapt the new normal as per best of their capacity but the new normal has affected working parents the most and taking a toll on mental and physical health.
- Taking care of kids, household chores along with working from home has left little to no time for parents to look after own health.
- Kids feeling bored while school are closed and cannot play with their friends.
- Businesses like gym, fitness classes, dance classes, summer camps etc. put on hold due to large head counts to avoid the spread of virus resulting businesses are in loss and looking for remote working options.
- Hence there is a need for a one stop solution for all these challenges – people trying to attain work life balance along with focus on health and fitness, for kids to keep them engaged in a healthy way and also for small business owners so they can provide their services remotely.

Our Solution - Fabulous

- The platform will provide custom solution to everyone's need for example, customized health & fitness plan, diet plan, exercise for mental health, how to keep your kids engaged - suggesting activities as per child's age, joining a community to virtually bring us all together.
- Tailored solution serving multiple needs hence user don't need to access multiple apps
- The solution will be available both on Web and Mobile App with following components.
 - Health and fitness
 - Kid's activities
 - Entertainment
 - Enroll for online classes
 - Join the community, Advertise your business
 - Create job opportunity within community

High Level Architecture

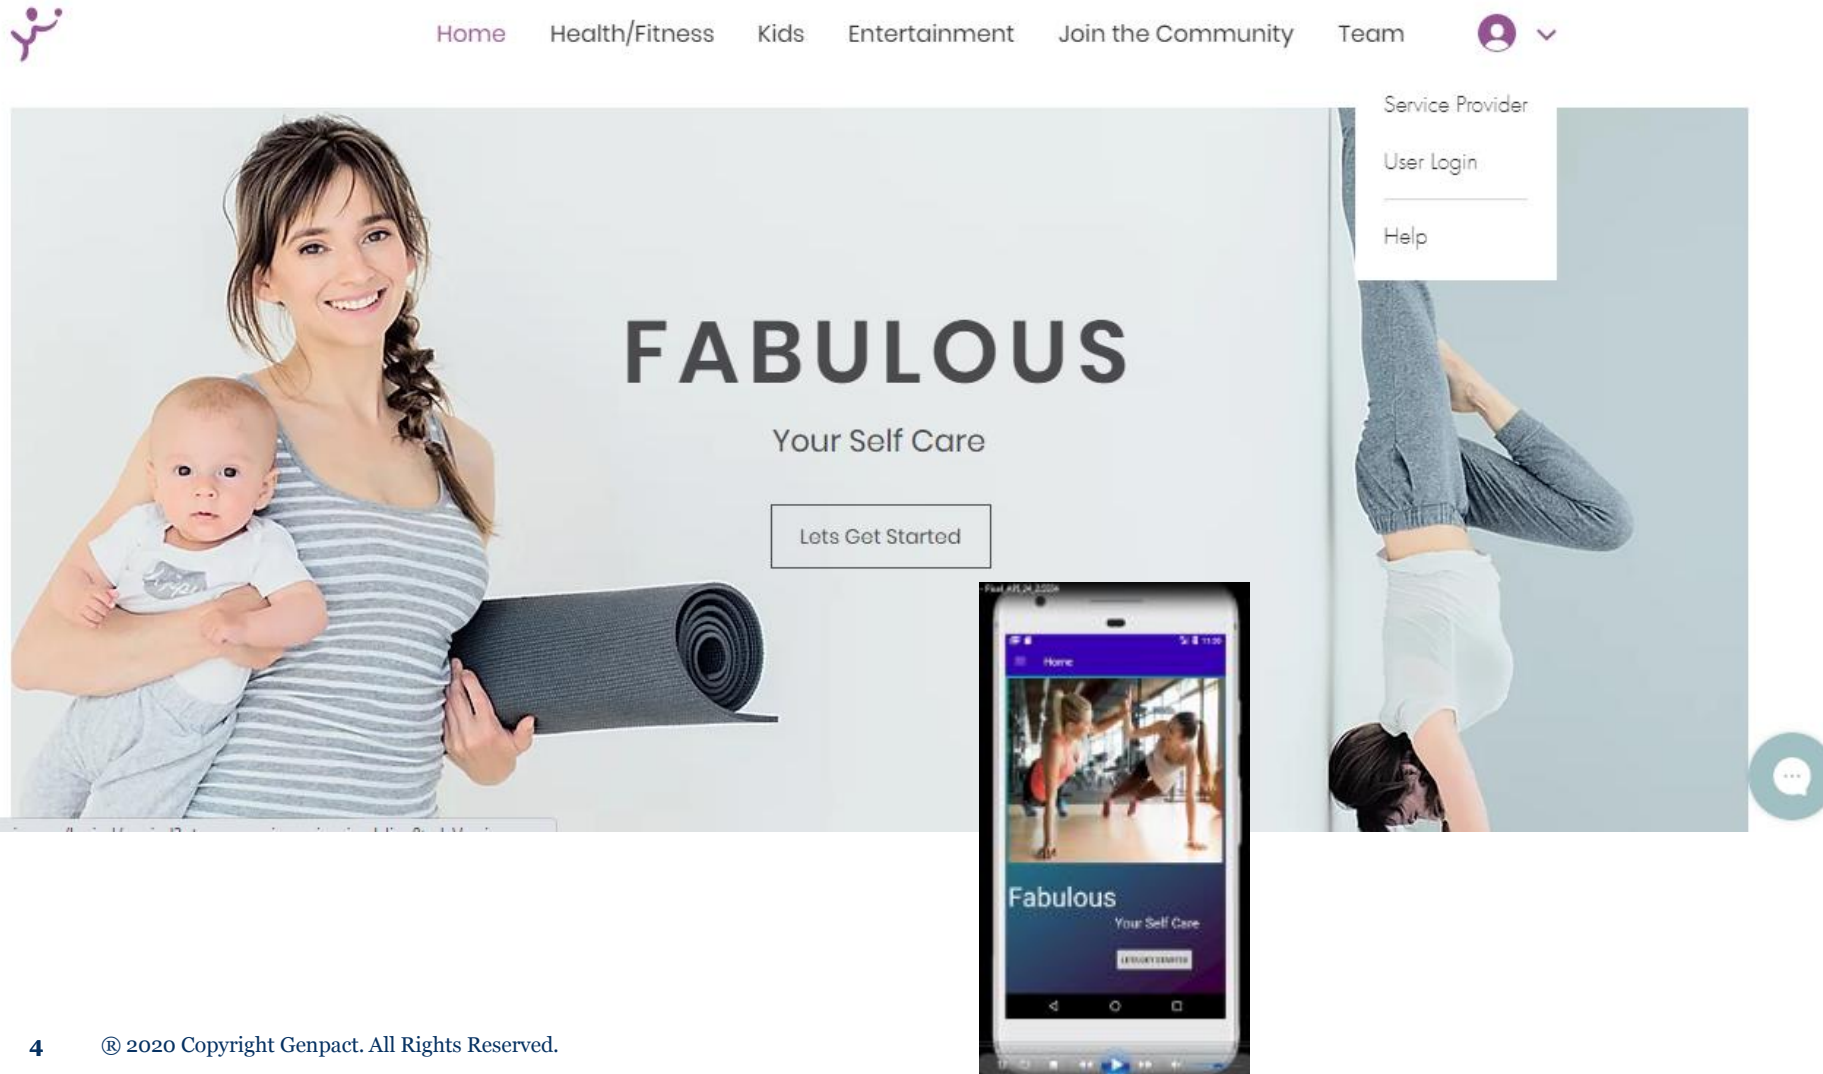

Key

	REST based Microservices	DB
	IBM Watson	UI

Components

Health & Fitness	Online sessions	Community	Service providers
Child Care	Entertainment	Register/Enroll	Online challenges

Sequence Diagrams

Solution Roadmap

Business Model

- Connect with various Gyms to provide online classes
- Connect with different organizations who care for their employees
- Nominal charges based on the number of employees enrolled for an organization
- Additional funds returned in form of rewards
- Time to market ~ 6 man months

Funding Needs

- \$500 k to complete the application and release in production environment
- Annual maintenance cost of ~\$150k / year

Sustainability Plan

- Non-profit running model
- Small team in Asia to support and maintain the app

Thank You
